  - If one leg exceeds more than 2,000 OV that is fine you just can't count the extra PV over 2,000 to hit this rank.

### **7 different ways to qualify:**

1. Have 19 team members do 1 party a week for 4 weeks
  - Challenge your Team members to do 1 party a week for 4 weeks. If they can't do a party challenge them to find 8-10 people to sell jewelry to every week. This will be a total of 4 parties in a month and will be profiting an additional \$360 a month.
2. Have 10 team members do 2 parties a week for 4 weeks
  - Challenge your Team members to do 2 parties a week for 4 weeks. This will be a total of 8 parties they will do by the end of the month and will profit an additional \$720.
3. Your team does 75 parties in the month that are at least \$200 parties or higher, which is selling 80 PV (40 pieces) or more. They then replenish the 80 PV (40 pieces) after their parties to keep their inventory stocked.
  - If they are not Personally Sponsored you will need them in different team legs so you are not lopsided with the 1/3 rule.
4. You need to add 25 people to your team with the Small Home Party Kit (\$299 kit).
